

Cross-Market Brand Performance Scorecard

Compare marketing performance fairly across brands and markets, using one structure leadership can trust.

1. Taxonomy

- ☐ Do all markets and brands use the same UTM and campaign naming convention?
- ☐ Can you compare campaign performance across markets without rebuilding the data manually?
- ☐ Would a new hire understand your tracking structure without a lengthy explanation?

2. Accountability

- ☐ Do agencies in every market report on commercial outcomes, not just media activity?
- ☐ Is one person accountable for cross-market marketing efficiency and data governance?
- ☐ When did you last reallocate budget using evidence rather than habit?

3. Reporting

- ☐ Does leadership reporting still take days of manual reconciliation?
- ☐ Could you show which market or brand is most efficient, using like-for-like definitions?
- ☐ Is reporting part of a fixed decision cadence, rather than produced only when someone asks?

HOW TO USE YOUR ANSWERS

Mark every No or Not sure. Prioritise gaps that prevent like-for-like comparison or delay budget decisions; fix definitions and ownership before rebuilding dashboards.

Faisal Mahmud

FRACTIONAL MARKETING DIRECTOR

Rebuilt cross-market performance tracking across 13 brands, 4 markets and a £75M+ budget at Mars.
